PERSONAL PROFILE

I'm a Front-End Developer with a passion for building responsive designs to foster inclusivity to maximize all user experiences.

My enthusiasm for developing these creative web technologies is empowered by my past experiences as a Chef. With many years in the hospitality industry, I have an innate desire for creating, testing and building projects to exceed expectations of different clients.

SKILLS

- HTML5, CSS, SCSS
- JavaScript and jQuery
- Working with RESTful APIs and Firebase
- React
- Website accessibility requirements
- Version control and collaboration using Git and GitHub
- Paired programming and team-based development
- Leadership and mentoring
- Project management

PROJECTS

Robo Trivia | React, API, Firebase, SCSS

A multiplayer trivia game that calls an API to populate trivia questions. Firebase is incorporated to persistently display high scores, player details and simulate a multiplayer experience without authentication.

NVDE Soaps | React, Firebase, SCSS

An initial design of an e-commerce site created for a client using Firebase to persistently display data in the shopping cart.

Sanctuary Helpers | JavaScript, CSS, HTML

A 3-page client PSD conversion using JavaScript to add interactivity. Developed within a pair programming setting.

ACADEMIC BACKGROUND

Web Development Immersive Certificate

Juno College of Technology, 2021

Accelerated JavaScript

Juno College of Technology, 2020

Accelerated Web Development

Juno College of Technology, 2020

WORK HISTORY

Restaurant Consultation

Prairie Boy Bread, 2020 to 2021

- Developed and curated a kitchen department to fit their current design layout to optimize workflow and production time
- Increased record sales by 58% from the previous year by implementing workflow over the holiday season during a pandemic
- Built infrastructures and outlines to standardize recipes, seasonal menu implementations, job descriptions/expectations adapted by the needs of the client
- Consulted on strategies for expansion and effective transition with opening new locations.

Operations Chef

Libretto Restaurant Group, 2012 to 2020

- Pivoted and transformed a low-revenue location to a commissary kitchen during a global pandemic to adapt to business needs
- Developed structures to optimize workflow for large production to supply multiple restaurants and retail vendors in the GTA
- Developed and recruited managers and team members by adapting to each location's needs with quarterly performance reviews, identifying training requirements, and coaching to meet staffing and succession plans
- Conducted audits for all four locations and strategized improvements to optimize financial performance and operational productivity
